

Tailor-made Harman Kardon® Sound for the Volvo V60

Harman Kardon brings decades of experience and excellence in sound to the new partnership with Volvo. Delivering a brilliant, perfect surround sound, carefully tailored for each model that sets new standards in listening pleasure.

The Volvo V60 station wagon is the core of the Volvo line-up. It offers great handling, natural driving dynamics and legendary Volvo comfort. For the driver of a Volvo V60, a comfortable, safe and stylish interior is important and perfect sound reproduction plays a vital role. Volvo relies on Harman Kardon to deliver the sound experience that fits into this world. In the Volvo V60, a powerful 650W 5-channel Class-D amplifier powers twelve carefully placed speakers.

The Harman Kardon sound system for the Volvo V60 with its crystal clear highs, powerful basses and low distortion midranges provides an unmistakable listening experience for passengers in all seating positions.

- ✓ The 25 mm cloth dome tweeters are perfectly tuned to work with midrangers and woofers
- ✓ ALumaprene midrange speakers and mid-woofers provide optimal damping characteristics
- ✓ Using the same midrange speaker in doors and for the center creates excellent tonal response and high staging
- ✓ The long-throw woofers with high excursion ensures rich bass performance even without a subwoofer
