

## Tailor-made Harman Kardon® Sound for the Volvo S60 and S80

Harman Kardon brings decades of experience and excellence in sound to the new partnership with Volvo. Delivering a brilliant, perfect surround sound, carefully tailored for each model that sets new standards in listening pleasure.

The Volvo S60 and S80 sedans are Volvos entry into the premium sedan segment. They offer space and style wrapped in Scandinavian luxury. For the driver of a Volvo S60 or S80 sedan, a comfortable, safe and stylish interior is important and perfect sound reproduction plays a vital role. Volvo relies on Harman Kardon to deliver the sound experience that fits into this world. In the Volvo sedan range, a powerful 650W 5-channel Class-D amplifier powers twelve carefully placed speakers.

The set-up in the S60 and S80 sedans with eight of the twelve speakers centered around the driver and passenger provides a holistic sound experience like no other. Top of the range technology delivers tangible benefits.

- ✓ The 25 mm cloth dome tweeters are perfectly tuned to work with mid-rangers and woofers
- ✓ ALumaprene mid-range speakers and mid-woofers provide optimal damping characteristics
- ✓ Using the same mid-range speaker in doors and for the center creates excellent tonal response and high staging
- ✓ The long-throw woofers with high excursion ensures rich bass performance even without a subwoofer
